MENTORING PACKAGES

For support while you get yourself started, determine your area of specialty, tackle your first client session, and continue your marketing efforts to grow your business, S.O.S. offers several options below for mentoring.

One-on-One: \$100/hour

Sit down with Cara via phone or in person for one (1) hour to further discuss setting up and running your business, and how to address unique client situations.

Four-pack of One-on-One sessions: \$350

For ongoing mentoring during the start of your business, or to have someone hold you accountable while challenging yourself through growth and change, this package offers four (4) one-on-one sessions, of one (1) hour each.

Monthly Mentoring Membership: \$100/month

If you are more likely to have a couple of quick questions per month rather than needing an hourly session, this package offers more flexibility. You will get four (4) 15-minute phone calls per month.
